

# IS IT A MIRACLE? YOU DECIDE!

*Work with your partner to decide whether each situation is a miracle or not. Make a plus sign if you think it is and a minus sign if you think it's not. Can't decide? Draw a question mark.*

- A baby is born.
- A woman survives being struck by lightning—twice.
- None of the 7.5 billion people on earth have the same fingerprint.
- An angel visits a man to tell him to not be afraid.
- The sun rises every day.
- A man wipes dirt and spit on a blind man's eyelids, and he regains his sight.
- An earthquake splits the earth.
- A human body has 50-100 trillion cells, and about 300 million of those cells die every minute.
- A man walks on water.
- A man gives up his life to save his friends.
- A lost boy survives three days in the wilderness. When he's found, he says a bear saved him by keeping him warm.
- A blind person regains her sight.
- A person wakes after being in a coma for years.
